## GETTING STARTED >

### // CHARGING THE BATTERY

The battery is charged by placing the battery pack into the charge cradle and connecting to a power source using the supplied mains adaptor.

#### Battery LEDs

100%      50%

75%      25%

## // **INSTALLING THE GENERATOR**

Take care not to touch exposed electrical contacts when installing product components. Ensure all components are securely fitted.

- Ensure unit is switched off and open the back cover
- Insert the generator firmly, engaging clips 1 and 2

## // **INSTALLING THE SMOKE CARTRIDGE**

Slide the smoke cartridge completely into the smoke generator housing following the guide rails.

**Note:** Do not insert the smoke cartridge until the generator has been fully fitted.

>

## // **INSTALLING THE BATTERY**

Clip the battery into place.

## **PRODUCT REGISTRATION >**

### **// GETTING STARTED WITH DETECTORTESTERS CONNECT**
