

PRODUCT CATALOG

TEST & INSPECTION EQUIPMENT FOR THE
FIRE ALARM & LIFE SAFETY INDUSTRIES

PIONEERING THE WORLD OF TESTING TECHNOLOGY

100+ Staff

Located in the USA, UK, Europe, Middle East & Asia.

Global Leader

Products distributed to 130+ countries and counting.

25 Years of Solo

The complete range for detector testing, access, and removal.

15 Years of Testifire

The world's leading all-in-one tool for smoke, heat, and CO detectors.

Partnerships

Approved by leading detector manufacturers and third parties.

GET POWERFUL INSIGHTS WITH AUTOMATED TEST REPORTS AND RECORDS

Testifire XTR2 combines testing and reporting to provide insights on the detectors being tested. During testing, Testifire XTR2 senses the detector LED to confirm the test result – automating the recording of results and pushing the data into a customized report. By working alongside the DT Connect app, Testifire XTR2 equips users with premium features that streamline the testing process, manage site assets, and optimize reports. The cloud portal gives an instant overview of work carried out, making it easy to share inspection reports with clients and gain insight on the status of the Testifire XTR2 units being used.

- ◆ All-in-one smoke and heat testing
- ◆ Automated pass or fail record
- ◆ Record and identify the device type, location, and address on-site
- ◆ Select panel type and record addressable panel time for fire panel verification
- ◆ Match your device inspection results against the fire panel event log
- ◆ Link to cloud for inspection results and reporting
- ◆ Upload your logo to appear on all reports
- ◆ Check Testifire XTR2 smoke levels, battery charge, and generator life

ENGINEERED FOR PROOF OF TESTING

Our latest test solution - Testifire XTR2, combines testing and reporting by automatically generating digital reports that provide test insights.

TESTIFIRE XTR2 SMOKE/HEAT TEST KIT

TESTIFIRE-XTR2

Includes:

- 1x Testifire XTR2 Head Unit
- 1x TES3 Smoke Cartridge
- 1x Testifire-BP Li-ion Battery
- 1x Testifire CHAK Charger Kit
- 1x Testifire-GEN Smoke Generator

Testifire XTR2 uses non-hazardous, non-pressurized cartridges to generate smoke.

All consumables, spares, and accessories are available.

TESTIFIRE XTR2 TEST & MAINTENANCE KITS

TESTIFIRE XTR2 SMOKE/HEAT TEST KIT

TESTIFIRE-XTR2-20F

- Includes:**
 1x Testifire XTR2 Smoke/Heat Test Kit
 1x Solo 100 15ft 4-Section Telescopic Pole
 1x Solo 200 Detector Removal Tool
 1x Solo 610 Protective Storage Bag

TESTIFIRE XTR2 SMOKE/HEAT TEST KIT

TESTIFIRE-XTR2-30F

- Includes:**
 1x Testifire XTR2 Smoke/Heat Test Kit
 1x Solo 100 15ft 4-Section Telescopic Pole
 3x Solo 101 4ft Extension Pole
 1x Solo 200 Detector Removal Tool
 1x Solo 610 Protective Storage Bag

SMART TESTIFIRE XTR2 SMOKE/HEAT TEST KIT

TESTIFIRE-XTR2-SMART

- Includes:**
 1x Testifire XTR2 Smoke/Heat Test Kit
 1x Solo 110 Smart 5.75 4-Section Telescopic Pole
 3x Solo 111 Smart 1.65ft Extension Poles
 1x SMART Backpack & Pole Bag

TESTIFIRE MULTICRITERIA DETECTOR TESTER

Testifire is the world's leading multicriteria detector tester. The all-in-one Testifire allows for faster and more efficient testing of both single and multi-sensor detectors. Testifire can deliver each stimulus individually or all three stimuli simultaneously, increasing productivity and lowering the overall testing time by up to 66%. A built-in clearing cycle provides rapid detector reset with no repeat alarms.

TESTIFIRE SMOKE, HEAT AND CO TEST KIT

TF2001

Includes:

- 1x Testifire 2000 Head Unit
- 1x TS1 Smoke Capsule
- 1x TC1 CO Capsule
- 1x Solo 727 Battery Charger
- 2x Solo 770 Battery Batons

- 1x Solo 610 Carrying Bag

ELECTRONIC TESTERS

The Solo 365 Electronic Smoke Detector Tester, uses non-hazardous, non-pressurized, environmentally-friendly cartridge technology for smoke generation. It allows for faster testing and creates less smoke waste with an auto-start proximity sensor that automatically generates smoke when the detector enters the cup. Using a unique clearing mode, the Solo 365 eliminates repeat alarms by clearing any remaining smoke.

SOLO 365 ELECTRONIC SMOKE DETECTOR TESTER

SOL0365

Includes:

- 1x Solo 365 Smoke Detector Tester
- 1x Solo ES1 Smoke Cartridge
- 1x Solo 371 Smoke Generator
- 1x 370 Lithium Ion Battery Pack
- 1x USB Universal Charger

SOLO 365 ASD ADAPTOR

SOLO372

Solo 372 transforms your 365 into an ASD detector tester. Easily fitted to allow for the functional testing of ASD systems.

DISPENSERS & AEROSOLS

The most widely used system for the last 20 years. Solo 330 is universal, lightweight, and simple to use. The dispenser works with Solo A10 and Smoke Centurion (M8) for the functional testing of smoke detector testers.

Use with Solo C6 for fast and effective testing of CO detectors.

Available in two sizes:

Solo 330/332 Spare Parts

Replacement Red Cup (Solo 330 only)
SPARE1028

Silicone Membrane
SPARE1005

SOLO 330 AEROSOL DISPENSER

SOL0330

Suitable for detectors with diameters up to 4in.

SOLO 332 AEROSOL DISPENSER

SOL0332

Suitable for detectors with diameters up to 7in.

SMOKE CENTURION

M8

Aerosol smoke for the functional testing of smoke detectors. For use by hand or with a dispenser (Solo 330/332). Silicone-free. No CFC's and low GWP Propellant. Sold in cases of 12.

SOLO A10 AEROSOL SMOKE

SOLOA10

Non-flammable aerosol smoke for the functional testing of smoke detectors. For use by hand or with a dispenser (Solo 330/332). Silicone-free. Sold in cases of 12.

SOLO C6 AEROSOL CO

SOLOC6

Non-flammable aerosol CO for the functional testing of CO detectors. For use by hand or with a dispenser (Solo 330/332). Sold in cases of 12.

SMOKESABRE HAND-HELD AEROSOL

The ultimate hand-held smoke detector tester.

The built-in 'Sabre' makes the product unique compared to other hand-held smoke test sprays - preventing use too close to the detector, which could lead to damage and nuisance alarms. SmokeSabre is the ideal backup for your complete test and maintenance kit or perfect as a test solution for small jobs or infrequent testing. Sold in cases of 12.

PERFECT FOR
SMALLER JOBS!

HEAT DETECTOR TESTING

SOLO 460 CORDLESS HEAT DETECTOR TESTER

SOLO460

The industry's leading standalone heat detector tester. The battery-powered Solo 460 is lightweight and easy to use. Suitable for fixed temperature, rate-of-rise, and combination detectors.

Contact us for the Solo 423/424 Corded Heat Detector Tester.

SOLO 461 HEAT DETECTOR TEST KIT

SOLO461

Includes:

- 1x Solo 460 Cordless Heat Head Unit
- 2x Solo 770 Battery Batons
- 1x Solo 727 Charger

Solo 461 Accessories & Spare Parts

Battery Baton	SOLO770
Battery Charger	SOLO727
Silicone Membrane	SPARE1005
Heat Baffle	BAFFLE

DETECTOR SENSITIVITY TESTING

TRUTEST SMOKE DETECTOR SENSITIVITY TESTER

TT801

Over time, smoke detector sensitivity can drift, becoming more or less sensitive. This fluctuation in sensitivity can cause the alarm to function ineffectively. Using detector testers to check the sensitivity of fire alarms is not only required by law but also provides greater control over the sensitivity of the fire alarms you're inspecting.

Trutest combines functional and sensitivity testing in one convenient package. With only one test, Trutest reads the precise detector sensitivity, indicating whether the detector needs to be recalibrated or replaced.

SMOKE 400 AEROSOL SMOKE DETECTOR TESTER

SMOKE400

Smoke 400 is a non-flammable aerosol used with the Trutest 801 to test the detector sensitivity of ionization or photoelectric smoke detectors. Sold with Trutest in the 800 Kit or available separately in cases of 12.

Trutest Accessories

Pole Clamp

TRUT730

TRUTEST SMOKE DETECTOR SENSITIVITY TEST KIT

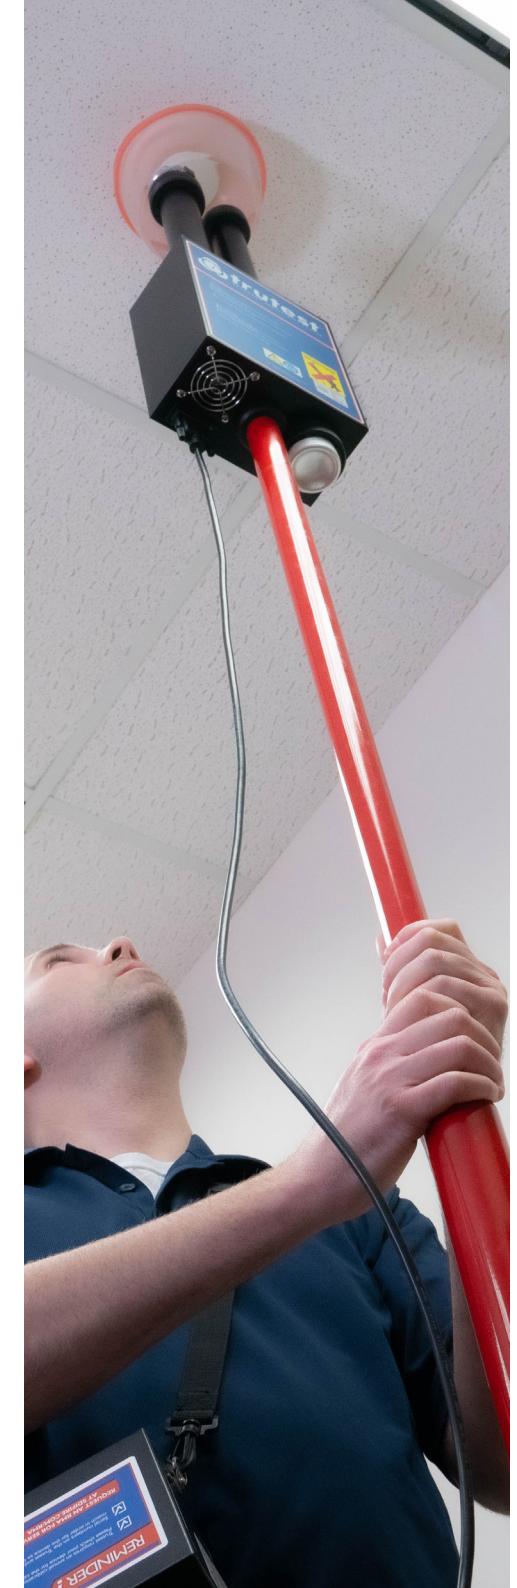

TT800

20 ft Reach

Includes:

- 1x Trutest 801 Smoke Detector Sensitivity Tester
- 12x Trutest Smoke 400 Detector Test Aerosol Canisters
- 1x Storage Case and Pole Bag
- 1x Solo 100 15' Telescopic Access Pole

REMOVAL & CLEANING

SOLO 200 UNIVERSAL REMOVAL TOOL

SOLO200

The Solo 200's universal design can accommodate the installation and removal of the widest range of detectors.

Color-coded heads rotate to provide a combination of sizes and settings to suit detectors of varying sizes and shapes. *Lifetime limited warranty.*

Solo 200 Spare Parts

Transparent Grips **SPARE1002**

BLOWOUT DETECTOR DUSTER

BLOWOUT

BlowOut hand-held air duster is perfect for use with fire alarm equipment. BlowOut comes with a directional straw, allowing access to hard to reach areas. BlowOut 10oz cans are sold in cases of 12.

HOW HIGH ARE YOU TESTING?

SOLO 100 15' TELESCOPIC ACCESS POLE

SOLO100

20 ft Reach

Specifications:

- Extends from 4.8ft to 14.9ft in four sections, allowing access to approximately 20ft.
- Collapsed length: 52"
- Add up to three extension poles to reach approximately 30ft.
- *Lifetime limited warranty*

SOLO 108 8' TELESCOPIC ACCESS POLE

SOLO108

12 ft Reach

Specifications:

- Extends from 4ft to 7.2ft.
- Collapsed length: 52"
- Add up to three extension poles to reach approximately 26ft.
- *Lifetime limited warranty*

SOLO 101 4' EXTENSION POLE

SOLO101

9 ft Reach

Specifications:

- Measures 3.9ft in length
- Can be used on its own or in combination with the Solo 100 or Solo 108 Access Poles
- *Lifetime limited warranty*

PROTECTIVE STORAGE & POLE BAG

SOLO610

To keep your Testifire and poles protected, add the Solo 610 protective carrying and storage bag.

- 12x BlowOut Detector Duster
- 1x Cell Checker

UPGRADE TO THE ST2 KIT

The ST2 Kit includes everything in the ST1 Kit plus dB Checker, Duct Checker, and a case of Smoke Centurion (12 cans)

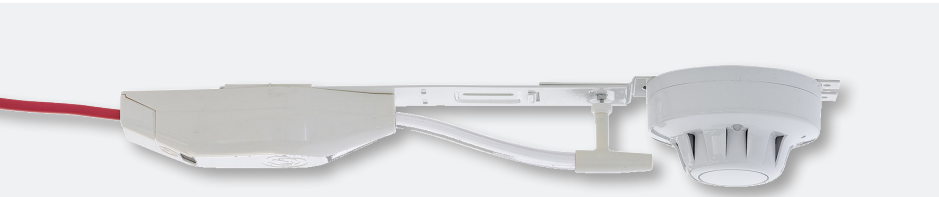

SOLUTIONS FOR TESTING POINT & ASD SYSTEMS

Testing hard-to-access smoke detectors? Scorpion is the solution for buildings with hard-to-access detectors. Suitable for both Point and Aspirating Smoke Detection (ASD) systems, Scorpion ensures all smoke detectors can be tested - regardless of location.

Detectors in hard-to-access locations still need to be tested, and this can take not only additional time but incur additional costs and personnel downtime. Scorpion suits a wide range of applications.

SCORPION POINT SMOKE DETECTOR TESTER

SCORP1011 

The Scorpion 1011 head unit is permanently installed alongside a smoke detector, testing is then initiated from a hand-held controller via a conveniently sited access point.

- Includes:**
 1x Scorp 1001-001 Point Head Unit & Mounting Bracket
 1x Scorp 25-001 Access Point

SCORPION ASD SYSTEM TESTER

SCORP2011 

The Scorpion head unit is permanently mounted adjacent to a sampling point on an ASD system pipe - typically at the end of the run. Just one unit is required for each pipe run - regardless of the number of sampling points.

- Includes:**
 1x Scorp 2001-001 Point Head Unit & Mounting Bracket
 1x Scorp 25-001 Access Point

ENGINEERS PORTABLE CONTROLLER

SCORP7000

The portable controller connects to a Scorpion Access Point to enable smoke generation and testing. Powered via a Solo 770 Battery Baton*

**Available separately*

ALARM COMPONENT TESTERS

Cell Checker Accessories

Padded Case

CELL01CS

CELL01LD

48" Clip-Type Lead

CELL01RL

Accessory Kit (Case & Strap)

CELLPAC

checker™
ALARM COMPONENT TESTERS

CELL CHECKER

CELLO3

Cell Checker utilizes pulse load technology to provide a comprehensive test of a battery's state of charge and condition. Rather than simply displaying a voltage reading, Cell Checker determines a battery's remaining power capacity by measuring its ability to maintain voltage levels while under load.

Use Cell Checker to test the performance of 2- to 12-volt batteries up to 200AH. Cell Checker also tests SLA batteries.

checker™
ALARM COMPONENT TESTERS

POWER CHECKER

PC01

Power Checker uses a patented, high-accuracy pulse load test to provide a comprehensive means of testing the state of charge or state of power for more than 30 primary (non-rechargeable) and rechargeable battery types, including NiMH, Li-Ion, alkaline, lithium, coin cell, button type and more. This microprocessor-controlled unit is designed for commercial or home use.

checker™
ALARM COMPONENT TESTERS

dB CHECKER

DB01/DB02

The ideal tool for measuring the sound pressure levels for audible alarm notification appliances as mandated by the National Fire Alarm & Signaling Code. The dB02 supports A frequency weighting and the dB01 supports A to C frequency weighting.

Specifications:

- Meets IEC651 Type 2 and ANSI S1.4 Type 2 Standards
- Conforms to NFPA 72
- dB01 Measurement Range: 32 to 130 dB at frequencies of 31.5 Hz to 8 KHz
- dB02 Measurement Range: 40 to 130 dB at frequencies of 100Hz to 8.3KHz

checker™
ALARM COMPONENT TESTERS

DUCT CHECKER

DUCT01

Duct Checker is ideal for annual testing to ensure that the duct detector will sample the differential pressure via the sampling tubes, as required by NFPA 72. Duct Checker is manufacturer-approved, easy to use, and ensures accurate results.

checker™
ALARM COMPONENT TESTERS

AV CHECKER

AV02

AV Checker is the ideal device for annual testing to ensure that the duct detector will sample the air velocity as required by NFPA 72, and according to manufacturer's instructions.

Specifications:

- Ensures duct detector will sample the air velocity correctly
- Easy to use
- Includes custom hard case
- Digital thermometer function
- Conforms to NFPA 72
- Meets CAN/ULC S536-04,5.7.4.4.1

BUNDLE DUCT01 AND AV02 WITH A DUCT DETECTOR TEST KIT (DUCTPKG)

SPEECH INTELLIGIBILITY TESTING

Having an effective and accurate fire safety system is equally as important as having reliable testing tools to ensure that it is functioning properly. Voice evacuation alarms need specific testing tools to ensure clear communication. SDi proudly offers Bedrock speech intelligibility testing solutions for use with emergency voice systems.

TALKBOX

BTB65

The BTB65 Talkbox is a calibrated acoustic signal source for taking STIPA measurements and more. It can play test signals through its built-in loudspeaker, or you can use the line-out feature to play the test signals through other devices. Includes a hard case.

- Easy to use touch screen
- Loudspeaker frequency range 20 – 15,000 Hz
- Plays back signal at a standardized (calibrated) signal level of 54-72 dB(A) at 1m
- Signal level can be increased/decreased relative to the environment

ADVANCED TALKBOX

BTB115

The Bedrock BTB115 is an advanced acoustic signal generator that supports a variety of test signals, including STIPA and full STI. Designed to match a human talker in terms of directivity pattern and other characteristics, the BTB115 Advanced Talkbox removes the hassle of creating a calibrated test setup.

- 3 Capacitive touch displays
- Effective frequency range 80-16,000 Hz
- Playback of user-uploaded signals calibrated on-the-fly through the powerful internal DSP.
- Integrated class 2 laser pointer and laser distance meter (range 0.03-1.50m). SPL at the test position is calculated from the distance.
- Wireless control via WiFi or Bluetooth

Accessories

Custom Hard Case

SMBTBCS

INTELLIGIBILITY MEASUREMENT KIT

SMBTBKT

Includes:
SM50 STIPA Meter
BTB65 Talkbox
Custom Hard Case

CLASS 1 MEASURING INSTRUMENT

AM100

The Bedrock AM100 is our most advanced class 1 / type 1 acoustic measuring instrument. It includes all the functionality of the Bedrock SM90 and more but has higher specs all around (such as more storage, a better display, and integrated wireless connectivity).

- Conforms to IEC651 Type 2, ANSI S1.4 Type 2
- Complies with NFPA 72 – 2013, ANNEX D

SPEECH INTELLIGIBILITY TESTER

SM50

Bedrock SM50 is a versatile speech intelligibility tester for fire safety systems. It has a user-friendly touch screen for easy control and can measure both STIPA and full STI. Features include RTA, FFT, Reverberation Time, Noise Curves, and more. It also has a USB port for quick connectivity and includes a hard case.

- Conforms to IEC651 Type 2, ANSI S1.4 Type 2
- Complies with NFPA 72 – 2013, ANNEX D

SERVICE

In addition to providing the best fire and life safety equipment in the industry, SDi also services, maintains, and provides support for all our products. With more than 20 years of combined experience, our service staff has the knowledge and skills necessary to keep your equipment performing at its best with minimal downtime. SDi's trained technicians are also available to provide convenient telephone support as well as online training.

SDi's Service Department honors all warranty work, performs routine equipment maintenance and calibration, and can correct problems that may arise with your testing equipment in an efficient, precise, and timely manner

Our services include:

- Preventative maintenance to extend the life of your equipment and reduce costly repairs
- Routine maintenance to keep your equipment operating at peak efficiency
- Repair and calibration services for:
 - Trutest
 - Cell Checker
 - dB Checker
 - SM50 & BTB65 Talkbox

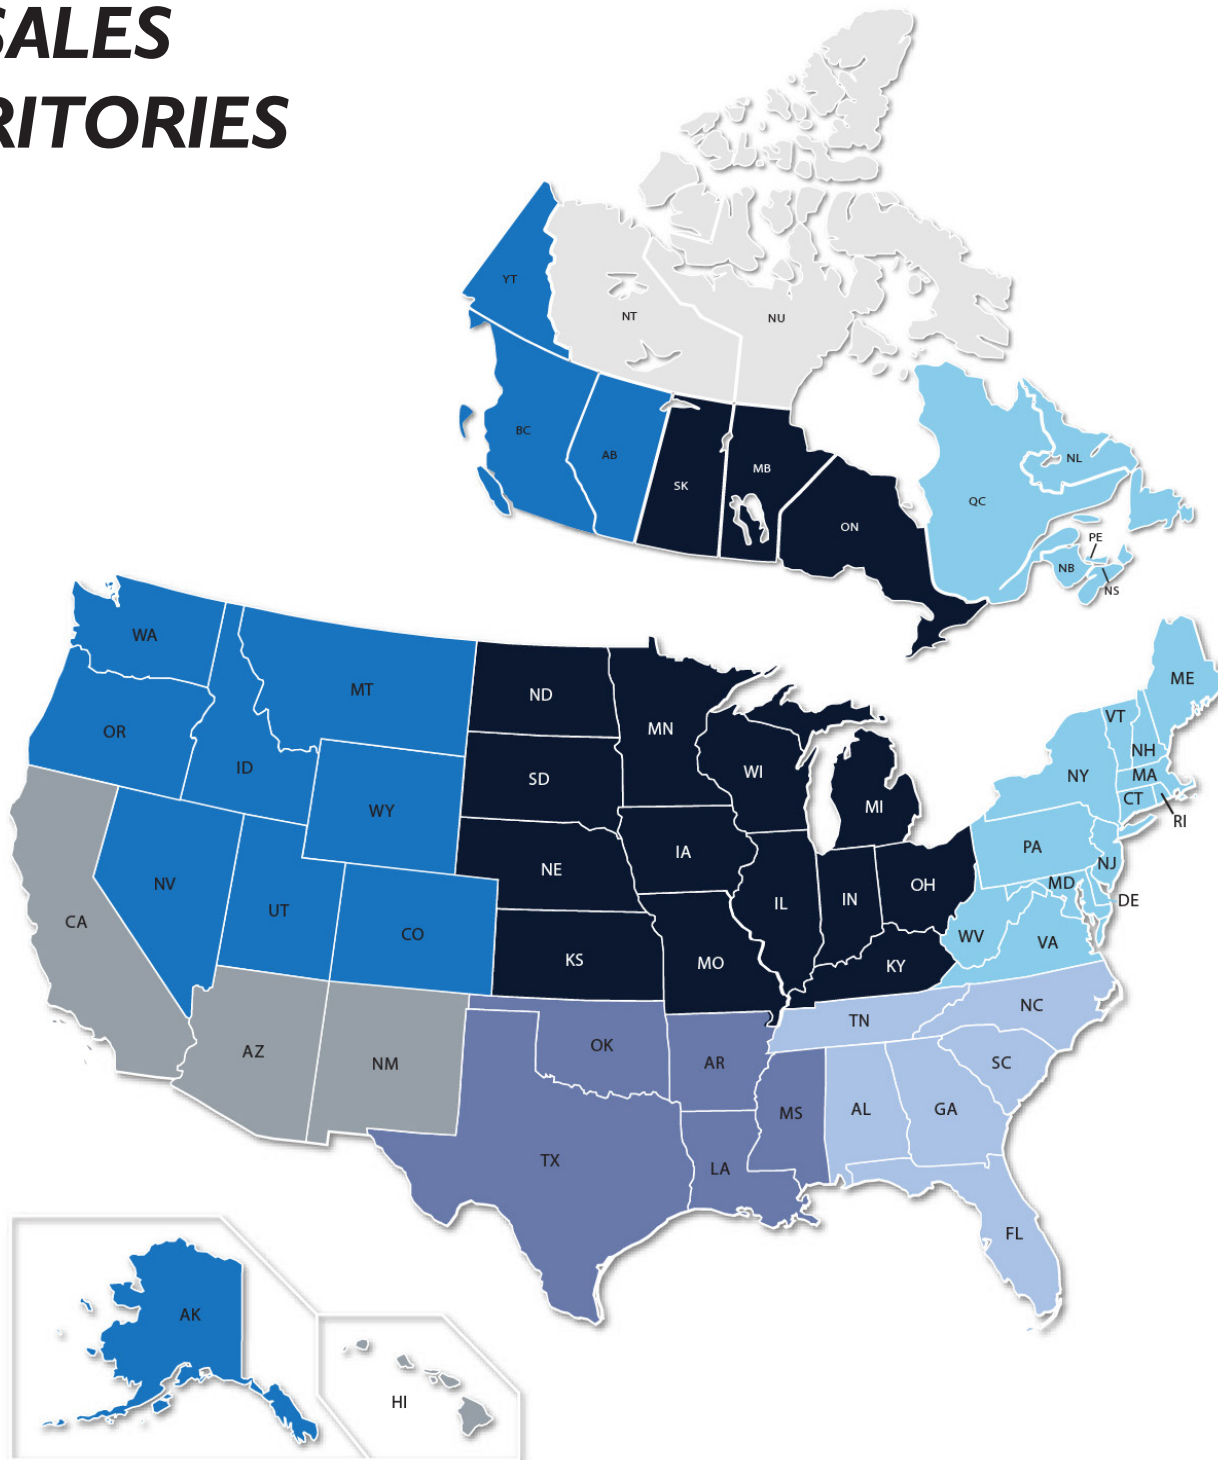

For service inquiries, please contact our service team at 732-751-9266 or email service@sdifire.com
